

Sara Jaroszyk, It's Electric Love

I was standing on the road, feeling empty
Going down where the devil roams
Maybe you'll be back again
But baby I can't see you coming

You make it tough to fall asleep
Drowning down in misery
You made me lose myself
And feel like I never have, I do

Pray for you, all my body's in need for you
There's nothing to lose, wash away my fear

Like a flare I will burn, it's electric
Break my fall I want more, your electric
Electric love

I was standing on the road feeling empty
Dancing skies above my eyes
Hunger for your touch disturbs all my thoughts
You make it tough, electric love
But all my means were never good enough
I won't truly live until I starve again, I do

Pray for you, all my body's in need for you
There's nothing to lose, wash away my fear.

Like a flare I will burn, it's electric
Violate all my love that's electric
Only thing that I need, your electric
Break my fall I want more , your electric
Electric love.
