

# Sara Overall, The real thing

Everytime I see you  
my mind runs wild.  
My eyes wanna see through  
what I don't know now.  
We can touch the other side  
if we let go and love will decide.  
I'm standed between  
this world and a dream.  
But I know,  
it feels like the real thing.  
I think it's for me,  
you seem to be  
what I want,  
I'll call you the real thing.  
Good-bye to the heartache  
I've fell through so long.  
Now I feel the earth shake  
'cause I'm where I belong.  
Now there's nothin' left to hide.  
We'll never know unless we try.  
I'm standed between  
this world and a dream.  
But I know,  
it feels like the real thing.  
I think it's for me,  
you seem to be  
what I want,  
I'll call you the real thing.  
Am I dreaming?  
Someone pinch me.  
You're so real.  
I can't be sleeping.  
Am I dreaming?  
Someone pinch me.  
You're so real.  
I can't be sleeping.  
I'm standing between  
this world and a dream.  
But I know,  
it feels like the real thing.  
I think it's for me,  
you seem to be  
what I want,  
I'll call you the real thing.  
I'll call you the real thing.  
I'll call you the real thing.
