

# Sarah Blasko, Your Way

Youve got a way that makes the darkness light the earth seem holy  
Spark in your eye ignites the fire in my heart  
My fever is high, my throat is dry whenever youre around me  
Its in your way, my love, that always inbounds

Its in the way move me darling (its in the way)  
Its in the way you come and go (its in the way)  
Its in the way the colours are drifting slowly (its in the way)  
Its in the way, its in the way (its in the way)

Right when i thought my life was mine, my heart was working for me  
I realised this blood was flowing for you  
cos your ways have made the seasons fade into an endless summer  
The coldness of winter, only felt when youre gone

Its in the way move me darling (its in the way)  
Its in the way you come and go (its in the way)  
Its in the way the colours are drifting slowly (its in the way)  
Its in the way, its in the way (its in the way)

cos hours seem to disappear when we are together  
Cos when youre are near, words seem clear, and i am brought to life, life, life

Its in the way move me darling (its in the way)  
Its in the way you come and go (its in the way)  
Its in the way the colours are drifting slowly (its in the way)  
Its in the way, its in the way (its in the way)  
Its in the way move me darling (its in the way)  
(its in the way move me darling)  
Its in the way you come and go (its in the way)  
(its in the way you come and go)  
Its in the way the colours are drifting slowly (its in the way)  
(its in the way the colours are drifting slowly)  
Its in the way, its in the way (its in the way)  
(its in the way, its in the way)  
(its in the way move me darling)
