

Sarah Brightman, Arabian Nights

(Part 1: Scimatar Moon)

Don't you forget the echo's of time
Won't you regret the losing of minds
In my dreams I'm searching across the
desert sands for you
Scimatar moon is guiding me close to your side

(Part 2: Voyage)

Voyage
Voyage
Wilderness to wilderness
I traveled from afar
On the soft wind of the Nadq came
Fragrance of Araar
Splendor of a thousand suns shone glory in my path
No love more pure and rage more fierce
Could still my beating heart
Voyage
Voyage

(Part 3: Promise)

So
Should I return to trace the shadows of my chases
My steps will echo there from sand to stone
I Will never let my eyelids close on empty spaces
My dreams will find the void with tales unknown
Know the mighty infinite obscures the far horizon
The whispered road I take will never bend
Alone
And will the wind return my story to its promise
Or will my story chase me to my end

(Part 4: Hamesha)

(Hindi Lyrics)

(Part 5: Alone)

Melodies unspoken
Flowing from the lotus of my heart
Ending where we start

Promises unbroken
Promising a never-ending fire
Of love beyond desire
Ending where we start
