

# Sarah Brightman, Colder Than Winter

It's colder than winter  
Right here in my heart  
Lord, I'm gonna miss her  
She's torn me apart  
I couldn't make you love me  
I couldn't give you any more  
It's colder than winter  
Since you closed the door  
It's colder than winter  
I'm freezin' inside  
And my tears won't be bitter  
Even though our love died  
I couldn't make you love me  
I couldn't give you anymore  
It's colder than winter  
Since you closed the door  
Every time the sun sets  
I shed another tear  
And the lonelier I get  
Wishing you were still here  
I couldn't make you love me  
I couldn't give you any more  
It's colder than winter  
Since you closed the door  
It's colder than winter  
Since you closed the door
