

Sarina Paris, Love In Return

If you wanna get
If you wanna get
If you wanna get

If you wanna get to know me
Then you gotta show me
Can you be there for me
Are you strong enough
Can you be my friend till the very end
When I give you love
Will you give me love in return

When you're close to me
I can't help it
I'm staring right through you
Wondering why
You dont notice
I'd do anything
My friends say you know my name
It's just not the same

[repeat]

You keep playing the shy guy around me
Pretending you're too cool
Tell me you're free
There's no body
You want more than me

My friends say you know my name
It's just not the same

[repeat]
