Saxon, Crash Dive

I just got the news
You're back in town
You're working for a good time
Are you still going down
You're little too crazy
You ain't gonna last
The candle lit at both ends
And it's burning too fast

You're going down (*)
Out of control
You're on a crash dive baby

You're talking too much
You're run out of time
You're walking on the limit
You're way out of line
It's a little too easy
To get what you will
You're running with the wolf baby
You're there for the kill

(Repeat *)

I just got the news
You're back in town
You're looking for a good time
You're still hanging round

(Repeat *)
