Saxon, Do It All For You

I'll climb the tallest mountain I'll swim the deepest sea I'll do anything, baby Anything to set you free

If you're lost and I can't find you Somewhere in the night I'll be there beside you To make you feel alright

You're standing in the darkness I can show you light Nothing stands between us That love can't make right

I'll do it all for you (*)
I'll do it all for you

When your world is full of sadness And the feeling just goes on and on I'll be there

If you're standing on the edge And scared of looking down I'll be there to catch you, if you fall

If you're trapped inside your heartache And you can't find escape Come with me and break away Don't matter what they say

(Repeat *)
