

# Saxon, Lights Inthe Sky

Silver ships across the sky  
Something I have never seen before  
Was it true or fantasy  
I don't know the answers anymore  
All I know is what I saw  
Something shooting fast across the sky

Did we see a rocket ship (\*)  
From another star  
Shooting through our galaxy  
Coming from afar  
I see your lights  
Shining in the sky  
Shining in the sky

Leave your signs across the land  
Mysteries, the answers that we seek  
Coming from another world  
Seen your circles in the golden sheaf  
One day soon we'll talk to you  
Find out if you come to us in peace

(Repeat \*)
