

# Saxon, Nightmare

Where are you  
In the night  
Where are you  
In the night

As the night closes in  
I lay in my bed  
Since you went away  
It's been driving me mad  
Stand in my room  
I can't see the light  
I wish you were here  
I'm lonely at night

I'm caught in a nightmare (\*)  
Alone in the night  
I was caught in a nightmare  
Alone in the night  
I was caught in a nightmare  
Alone in the night

I was caught on the inside  
I'm afraid of the night  
Let my nightmare begin  
Where reality ends  
I won't sleep tonight  
My head's spinning round  
I'm alone in a crowd  
I'll wait for the dark  
For my nightmare to start  
I'm lonely at night  
Don't leave me this way

(Repeat \*)

I was caught in a nightmare  
Alone in the night  
Oh, well you found me  
Alone in the night  
Don't leave me this way  
Don't walk away  
Alone in the night  
Don't leave me, no  
Don't walk away
