

# Saxon, Rockin' Again

I'm standing in the dark, let the music start  
I can hear you call out my name  
I see the flashing lights cutting through the night  
The spotlight is shining on you  
I've always been around  
I'll never let you down  
I've seen it through right from the start

We'll be rockin' together, rockin' again (\*)  
We'll be rockin' together, rockin' again

I'm standing in the dark, let the music start  
I can hear you call out my name

Do what you wanna do tonight  
We're gonna make you feel alright  
Do what you wanna do tonight

Stop the show, I gotta go  
But we'll be back for more

(Repeat \*)
