

# Saxon, Till Hell Freezes Over

We're on a one way street  
Going down the wrong way  
We're trying to swim upstream  
Against the raging tide  
We're on an uphill climb  
Right into the headwind  
We're standing on thin ice  
Fighting for our lives

It's been a hard road  
And we're never going back  
Till hell freezes over  
Till hell freezes over

We're on a crazy ride  
Going where the wind blows  
We're on the crumbling edge  
Waiting for the fall  
We're trying to keep it cool  
Walking on a tight rope  
We're hanging on thin thread  
Trying to survive

It's been a hard road  
And we're never going back  
Till hell freezes over  
Till hell freezes over
