

Scarlet, (This Would Be My) Fantasy

This would be my fantasy that
You care about me more
Than I care about you
This would be my fantasy that
You'd make things easy
And that I'd be carefree
For everyone of those alone they find
A lover for their own yeah
This would be my fantasy yeah
That the selfish would be selfless
And the loveless would be loved
And the needy would be granted
Every wish that they deserve
And the hopeless they would find hope for
All the helpless that need some light
That's what I'd like, that's what I'd like
This would be my fantasy
I'm a fly on your wall babe
I see all that you do
This would be my fantasy
There's a hotel bar with
Some naked man in my room
That those who face the end with nerve
Die with the dignity they deserve oh
This would be my fantasy yeah
That the worthless would be regal
And the rich would pay their way
And the heartless they would find heart for
All the masses who've caused them pain
And the runner-up would be famous
And that wrong would sometimes be right
That's what I'd like, that's what I'd like
This would be my fantasy that
If you're anxious you'll be laughing
If you're vulnerable you'll not be scared
If you're cheated then you'll get even
If you're ignored then you'll get heard
And if you wanna be, then you will be
And then your fantasy could be your life
That's what I'd like
That's what I'd like
This would be my fantasy
