

# Scenes And Sirens, Call It Weird Or Call It Salsa

So tell me did he make it all worth it  
A tell-tale lie is hard to come by  
And if it only lasts a minute  
Will we find a reason to compromise  
Now I spy a super self-sufficient girl and a guy  
Well this is to another so forget your vows and live your life

(Chorus)

But I could never find the words to tell her just how this sits  
And you will never guess what happens next  
So tell me how you know just how this could go on  
Paralyzing, I can't breathe  
And tell me why liars love  
And heroes die  
Well I just can't seem to catch a grip  
So catch a glimpse

It's one more night of you dancing down the middle  
Shaking and I tremble at the sound of your name  
When all hell breaks loose  
Will you still be wearing your dancing shoes  
tapping and clapping on the souls that once called your name

(Chorus)

But I could never find the words to tell her just how this sits  
And you will never guess what happens next  
So tell me how you know just how this could go on  
Paralyzing, I can't breathe  
And tell me why liars love  
And heroes die  
Well I just can't seem to catch a grip  
So catch a glimpse

You will never guess what happens next..
