Scooter, Never Slow Down

Hot like wax going up to the max

Starting up those lyrics on our radical tracks Put on your headphines when I'm expressing lyrical

Like no other MC, my concept is a miracle

When I grab the microphone I don't like the slow mo You know my flow is better than the porno in Soho

All I recommend is to be in the place

When we start jammin' up and rocking to your face

Never slow down, never slow down

Never slow down, never slow down

Never slow down, never slow down

Never slow down, never slow down, d-d-down

F-f-fresh on the mic you got it tonight

We're still in the mix and we've won the fight

Here is the lyrical assault and I call it rough

If someone's gonna blame us e-enough is enough

Ti-ti-ti-tired of the business sick of all the fake hellos People run around and while they look like marshmellows

We continue our work we don't want no repeats

'Cause we know our crowd is still addicted to our beats-beats

Never slow down, never slow down

Never slow down, never slow down

Never slow down, never slow down

Never slow down, never slow down, d-d-down

N-ne-nev-never slow down, never slow down

Never slow down, never slow down

Never slow down, never slow down

Never slow down, never slow down, down down d-d-down

N-ne-nev-never slow down, never slow down

Never slow down, never slow down
