

# Scorpions, Going out with a Bang

If you say we're falling  
It's gonna be on our feet  
We're gonna take it to town  
We'll ride the dark side of the street

If you think we're not fighting  
Like we used to do  
So are you ready for this  
You might learn a bit a trick or two  
Cause all those years of rockin' hard

Have taught us how to rise and how to fall  
We're still standing tall

We're going out with a bang  
We're going out with a bang  
I said, we gonna go out with a bang  
Bang, bang, bang!  
Out with a bang

If you say we're losing  
Watch out we're taking the crown  
Thumbs go up all the way  
No sign of slowing down

If you think we're excited  
I cannot tell you how much  
Cause life's a heartbeat away  
And we're never losing touch

Cause all those years of rockin' hard  
Have taught us how to rise and how to fall  
We're standing tall

We're going out with a bang  
We're going out with a bang  
I said, we gonna go out with a bang  
Bang, bang, bang!  
Out with a bang  
Bang, bang, bang!  
We're going out with a bang  
Bang, bang, bang!  
Out with a bang!

Cause all those years of rockin' hard  
Have taught us how to rise and how to fall  
We're standing tall

I said, we gonna go out with a bang  
Bang, bang, bang!  
Out with a bang  
Bang, bang, bang  
We're going out with a bang  
Bang, bang, bang  
Going out with a bang, bang, bang  
Bang
