

Scream Maker, We Are Not the Same

Equality

You're asking me what it's all about
They gave you lies
That fool is not worse than wise
They turned its subtle meaning wrong way up
There's good and bad
And there's the great divide...

We are not the same
We are walking different ways
We are not the same
Everyone leaves different trace

Hierarchy

Comes from the need to follow the best
When it's destroyed
The chaos comes to fill up the void
They turned its subtle meaning wrong way up
There's good and bad
And there's the great divide...

We are not the same
We are walking different ways
We are not the same
Everyone leaves different trace
