

Sebastian Bach, Everybody Bleeds

Newsflash! This just in:
Everybody bleeds!
Everybody burns.
Everybody drowns

Straight up dangerous
Cold blooded, venomous
The child who speaks & won't give in

Won't get a 2nd chance
No time for sweet romance
For those who lead us
Into sin

Well, I don't like what I see
What we've become to be
The die is cast, they'll take you down

Everybody bleeds
Everybody burns
Everybody drowns

It's hard to say & you don't wanna hear
They didn't want us to know
World gone outside
Try to find out a plan
How to understand
the Child Within the Man

Defendant, do you plead?
Guilty in First degree
A generation selling out

No more left or right
No matter black or white
The situation? Volatile

From the mouths of babes
The Mother we must save
No longer living in denial

Everybody bleeds
Everybody burns
Everybody drowns

It's hard to say & you don't wanna hear
They didn't want us to know
World gone outside
try to find out a plan
How to understand

the Child Within the Man

She's sick of the misery
& the million times that he lied to me
Can't say we got a lot to lose
When when we got is what we choose

Denial
What we got to lose
Denial
What do we choose?
