

Secondtunez, Summer

Now it's summer allowed to be there
I see hot chicks everywhere
Walking down the street
With my iPod on repeat
When I look in to the sun
Feels like everything is fine
Can you read my mind?
The summer has taking control
I take my shoes and walking with you
We're going down to the beach
Just like in my dreams
The summer has taking control
I take my shoes and walking with you
We're going down to the beach
Just like in my dreams
The night just came so fast
We going home at last
I can't believe how the day has past
We're not doing any sound
As we watch the sun goes down
We're going back too long to some town
Can you see, the sun goes down
I can't believe
The summer has taking control
I take my shoes and walking with you
We're going down to the beach
Just like in my dreams
