

# Seed, Double Soul

(Seed)

I like that sound, when you call my name  
I like it when you say you like the same  
I cannot take my eyes of you,  
Even if you want me to  
The gap between your teeth drives me insane  
Uh, baby you look so sexy when you get vexed with me  
That's the only reason why at times I spit on harmony

(Refrain)

Baby we are double soul  
And we need each other so  
And we get higher  
We got that fire

(Tanya Stephens)

Well every lie whe you lie when you come home to the I  
Inna di morning inna di morning  
And all the private phonecalls mi no like it at all  
Take my warning take my warning  
Yo, too much arguments wear out my patience  
Mi no like it, no mi no like it  
But if everything a start run smooth inna di end  
Mi nah fight it, mi nah fight it  
Well sometimes it's gonna be ruff and about that I cannot lie  
I know you know my feelings when you lookin in mi eye  
And it no matter how we get a little sticky pan di I  
You know dis a no lie Yo  
You still a be me guy

(Refrain)

(Seed)

Come on girl get ready for a joyride  
do it every day out in the sunlight

the evil ant the lonleyness stay outside  
(Baby girl)

(Tanya Stephens)

Well if mi ah fire, you can be my spliff  
Light it up now and let me take a gone whiff  
Blow it inna di air and make it hang like a cloud  
Cause we not fraid fi shout it out loud:  
anything you feeling I'm a feeling to  
Love your reflection inna di ceiling boo  
When we're makin love inna di candle light, Yo  
Come make we do it every night

(Refrain)
