

Seed, Next...!

"[Chorus]"

Next! We're giving you stuff to relax,
To have sex, to cheer you up when you're vexed
You had a wife, now she's your ex
Go get a life, we give you soundtrax!
This is how we flex

We plant this sound downtown like a seed growing
You wanna dance so we must keep it going
A big grievance when we leave every-body knowing:
Seed is a serious dancehall-rock-rolling!
Like the morning star, so we keep glowing
You can hear us from far through your speaker blowing
Seed, the musical doctor we keep so win the sound
Feel the medicine flowing

"Chorus"

"[Bride]"

Seed don't stop to rock the spot all night
We rocking the spot tonight
All right
We making a pop

You need medicine we gonna give you some
You don't have money, you can pay your fun
Call us doctors, we trick, if you are sick we will kick
the shit out of you
Just say you want us to

Think loud say what you gonna say
Don't doubt we won't be delayed
Understand that we got you
We have found you and watch you
Then we touch you
With the surgeons blade

Rejoice we are back on your way
Yeah boys let's ride another day
Put some heart in your head
An a thought in your heart
Feel the power, this is state of the art

"Chorus"

"Bridge (2x)"

Kick the asses we always gonna be the one
Move the masses no matter we're you come from
Mix the classes pimps, punks, holy nuns
Move your ass slow or fast

Bring the sound sound so full of sun
Shake the ground so jump up everyone
Wanna see you bounce seed
Sound coming down burning,
Turn it up and blast it up, yeah

Keep the progress on, on and on
Afraid of no test strong, hot and long
You better know this: seed gonna
Be the one you can rely on till you die

"Bridge (2x)"

"Chorus"
