

Sense Field, Beatles Song

She's got a friend, She's got a broken heart...
Lying in bed waiting for life to start...
She's got a friend, she's got a Beatlesong, oh yeah...
She played it all night long, oh yeah...

She made it again but then it fell apart...
She played it again, she played her favorite part...
She's got a friend, she's got a Beatlesong, oh yeah...
She played it all night long, oh yeah...

Now she's happy alone, now she's happy alone, now
She's happy alone...
she's got a friend, she's got a Beatlesong...
She played it again, she played it all night long...
She's got a friend, she's got a Beatlesong
She played it again, she played it all night long...
She's got a friend, she's got a Beatlesong
She played it again, she played it all night...
