## Sepultura, Amen

Forgive me father
Forgive me God
I know i've sinned
With no remorse
Apocalyptic visions
Went through my head Here today

Gone tomorrow
It's all insane
I'm feeling sick
I'm feeling numb
The storm will come
In the name of God i'm the chosen one

Terror raids the land To ashes we'll be sent In the name of God Lives cast away

Martyrdom of myself Armageddon comes In the name of God Not one more dead

Fire blasting, cutting edge Children burn in flames In the name of God We're going insane

Let us die You don't realize This is the time God's sacrifice

Leaving behind Lessons in hate In the name of God We're all dead Burn!
