

# Sepultura, Fighting On

Weight of the world  
Each have to carry there own  
Nothing's for certain  
But to carry your own

From the first birth of life  
till our final last breath  
You never thought that you could make it this far  
We don't stop, we keep fighting on

Wandering in circles  
Motivated by fear  
Searching for answers  
The're right in front of you

From the first birth of life  
till our final last breath  
You never thought that you could make it this far  
We don't stop, we keep fighting on

I can promise you I'll (carry on)  
My time is now  
From the first birth of life  
till our final last breath  
You never thought that you could make it this far  
We don't stop, we keep fighting on

From the first birth of life  
till our final last breath  
You never thought that you could make it  
But we carry our own
