## Sepultura, Mindwar

Do you walk in shadows
Do you walk with fear
Do you sleep with anger
Do you keep it near
Is there ever focus
When you plan things out
Gods hands/gods fault
Just drunk with power

Lost cause

No coming back

Lost soul

Theres no regret

Lost cause

No coming back

No thurst mindwar

A war of words

Battles in your mind

Contradictions rising

Whats wrong and right

Lost cause

Theres no regret

Lost soul

No coming back

I know youve heard it all

Its no excuse for whats been done

You know you felt the pain

When you sat and watched there suffering

Weve got sick people in this fucked up world

Its just ripping away at everything that I feel

Even the sight of you makes me ill

I wish could wake you up - to make you see this is real

Lost cause

No coming back

Lost soul

Theres no regret

Lost cause

No coming back

No thurst mindwar
