

Sepultura, Unconscious

The deepest pain inside
The highest price to pay
The biggest lies are said
I'm just a fake in life

Unconscious Unconsciousness
Unconscious Unconsciousness

Alone I fall again
My blood runs through my veins
My brain and my strength
No longer are the same, no!

Unconscious Unconsciousness
Unconscious Unconsciousness

The moment of truth
Destroy the sense of it
I thought that was then
I thought that was me

Still I fear Unconsciousness
Still I seek Unconsciousness
