

# Sergey Lazarev, Someone Like You

## Verse 1

Can't sleep tonight  
Something isn't right  
And I'm feeling all alone  
And my heart wants you to know  
Something in your touch  
Poisons me so much  
The habit I can't break  
I just can't stay away

## Bridge

You're the right place  
You're the right time  
You're the only one on my mind

## Chorus

Someone like you can take my heart  
And leave me broken on the floor  
Someone like you can make me feel  
Higher than the sun  
Someone like you  
Someone like you  
Someone like you can make me feel  
Higher than the sun

## Verse 2

What you give to me  
I just can't believe  
It's driving me insane  
And I lose myself again

## Bridge

You're the right place  
You're the right time  
You're the only one on my mind

## Chorus

Middle part  
Something in your touch  
Possesses me  
It sets me free  
Poisons me so much  
I can't escape  
Can't get away
