

Sergio Mendes, Say It With Your Body

Sssh
Don't talk
Don't talk
Just say it
With your body

Say it with your body
Baby, let the moves you make
Do all your talking
Let your body tell me
What'cha got in mind
Say it with your body
Show me what you want
And skip the conversation;
Baby, let your body lay it on the line

Slowly drowning in the music
Go with how it feels without a word
Get your fantasies in motion;
If you got somethin' hot to tell me
That I've never heard

Say it with your body
Baby, let the moves you make
Do all your talking
Let your body tell me
What'cha got in mind
Say it with your body
Show me what you want
And skip the conversation;
Baby, let your body lay it on the line

You and me keep getting closer
Reachin' for each other with our eyes
Baby, save your breath for later;
Let me listen to your body
'Cause a body never lies

Say it with your body
Baby, let the moves you make
Do all your talking
Let your body tell me
What'cha got in mind
Say it with your body
Show me what you want
And skip the conversation;
Baby, let your body lay it on the line

We're electric Shadows,
Touching in the dark
We're a promise of a fire
About to spark
We're dancing on the edge
Of breaking free
So, baby if you wanna say
Tonight belongs to me

Say it with your body
Baby, let the moves you make
Do all your talking
Let your body tell me
What'cha got in mind
Say it with your body
Show me what you want

And skip the conversation;
Baby, let your body lay it on the line

Say it!
Ooh, ooh, ooh
Say it with your body
Say it!
Ohh, ohh
Say it with your body
Say it with your body
Say it!
