Zoe: You moon!
You are so big and so bright
We see you mostly at night
We love to watch you
You moon!

Elmo: You moon!
You live up there in the sky
Up where it's higher than high
We love to watch you
You moon!

Herry: We know that you are so far above us

It's much too far for us to walk
But all the same, you've got to love us
When we stand down here, look up, and gawk!

Rosita: You moon!
Up there among all the stars
Up there with planets like Mars
We love to watch you
You moon!
