

# Session Road, Eager Angels

I see you walking in  
Hurting from what have been  
As your face draws back  
And open up a sigh  
I hate to break it in you  
It's the hardest thing she had to  
But her words meant baby  
Everything is through  
Nanananana nanananana  
Nanananana nanananana

[refrain]  
I watched upon the heavens  
Wait till you believe our moment is true

[chorus]  
Like eager angels falling from heavens  
I'd give it all up to share the pain with you  
Like eager angels falling from heaven  
Undaunted cause your love  
Will see me through

How can I make you feel  
How i want to hold you near

I ache to feel your hand caress my soul  
I'm standing next to you  
My days no longer blue  
I'd shed my wings to offer what is true  
Nanananana nanananana  
Nanananana nanananana

[repeat refrain]

[repeat chorus]

[bridge]  
I still can taste the scent of your voice on my lips  
Every moment i close my eyes and breath you  
It was a moment that would linger on in my stubborn disbelief  
In the magic that was wovenstolen

[coda]  
Like eager angels  
Like eager angels  
You're my angel  
You're my angel
