

# Seven Places, Thinking It Over

I've been thinking it over  
Taking the time to find the words  
Getting close to this God I serve  
'Cause He came over and God became a man  
Coming in colors in black and white and red

I've been thinking it over and over and over and over  
Barely breathing, seeing the meaning  
Of God in love, come from above  
And I've been thinking it over  
And I've been thinking it over

Hallelujah, that God would make a man  
Hallelujah, and save him with His hand

I've been thinking it over and over and over and over  
Barely breathing, seeing the meaning  
Of God in love, come from above  
And I've been thinking it over  
And I've been thinking it over

So could I come over and bow before Your feet  
Sit and wonder how I have been received?  
I've been thinking it over...
