

Sevendust, Abuse Me

<Silly that you think that I'd lie here
Shakin' wide awake and waitin'
For the rule on where you belong - so long

(Deception is the way to keep on)

Abuse me and only
Leave the world not knowing you
Turned me away
Assured me they can't see
(The pain you put me through)

Sorry to break the news
See the bruise
The fear you inflict on me
Never feel you're wrong? - How long?
(Will it take to see it the right way)

Deception is the way to keep on

Abuse me and only
Leave the world not knowing you
Turned me away
(Assured me they can't see)

(WHYYYYYYY?!)

Abuse me and only
Leave the world not knowing you
Turned me away
Assured me they can't see
(The pain you put me through while knowing)
I'd never be the same

Abuse me and only
(Leave the blame inside of youvvvvvv)
