

# Shaaman, Eagle Fly Free

People are in big confusion  
they don't like their constitutions  
Everyday they draw conclusions  
And they're still prepared for war

Some can say what's ineffective  
Some make up themselves attractive  
Build up things they call protective  
Well your life seems quite bizarre

In the sky a mighty eagle  
Doesn't care 'bout what's illegal  
On its wings the rainbow's light  
It's flying to eternity

Eagle fly free  
Let people see  
Just make it your own way  
Leave time behind  
Follow the sign  
Together we'll fly someday

Hey, we think so supersonic  
And we make our bombs atomic  
Or the better quite neutronic  
But the poor don't see a dime

Nowadays the air's polluted  
Ancient people persecuted  
That's what mankind contributed  
To create a better time

In the sky a mighty eagle  
Doesn't care 'bout what's illegal  
On its wings the rainbow's light  
It's flying to eternity

Eagle fly free  
Let people see  
Just make it your own way  
Leave time behind  
Follow the sign  
Together we'll fly someday
