

Shakira, Come Down Love

Dont heal the fundamental must
Still watch your own little ass
But you should know
I love you so
For you, I'll take a chance
To forgive is an art
And its a pain knowing how to last
No, don't you play with my heart
Don't leave me here,
Just take me home, safe and fast
No one can see it now
Can't you believe in how
There is no wrong
There is no right
It's you and I together
