

Shane Minor, Ordinary Love

(Bob DiPiero/Dan Truman/Craig Wiseman)

Well, it's the simple things
A look, a laugh, a clover ring
And all those little scenes that dreams are made of
And it's evident where my hopes and prayers are spent
Well there she came and there I went

So amazing, mystifying
Baby there's just no denying
Every time we touch
Heavenly it's so divine
But you know what just blows my mind
Is the miracle of us, just an ordinary love
Just an ordinary love

Just another day, a kiss goodbye and I'm on my way
Rushing through the maze right back to your arms
And, it's typical, just a boy and just a girl
Down our street and around world

So amazing, mystifying
Baby there's just no denying
Every time we touch
Heavenly it's so divine
But you know what just blows my mind
Is the miracle of us, just an ordinary love
Just an ordinary love

So amazing, mystifying
Baby there's just no denying
Every time we touch
Heavenly it's so divine
But you know what just blows my mind
Is the miracle of us, just an ordinary love
Just an ordinary love
