

# Shanguy, Yalla Yalla

Keep pretendin'  
I'm in heaven  
On my own I play it so cool  
But I can't wait  
another second  
Got me sweatin' boy I want you

Yeah I've been thinkin bout us Slide on over no rush  
Give me all of your trust Lemme work it out  
And now you're feelin it too Everything that I do  
starts a fire in you  
Lemme work it out

Every time I close my eyes See your body on mine  
Need to feel you next to mine Baby yalla yalla!  
So you can call me on the late I'll come right away  
If you want me the same Baby yalla yalla!

This heat's intense and my defenses  
YALLA YALLA

Start to melt out on the dancefloor No more debatin  
Whatcha waitin'  
for I'm sayin that it's all yours

Yeah I'm done thinkin bout this Boy don't try to resist  
Gimme more than a kiss Lemme work it out  
You say you're feelin it too Everything that I do  
Starts a fire in you Lemme work it out

Every time I close my eyes See your body on mine  
Need to feel you next to mine Baby yalla yalla!  
So you can call me on the late I'll come right away  
If you want me the same Baby yalla yalla!  
La La La La La La La La La La La La La La Baby yalla yalla!
