Shawn Mendes, Call My Friends

Right now I'm alone inside the airport And you're all at a bar in our hometown Feels like we been living different lives

The music's loud and everybody;s dancing How many nights i've missed I've lost count Haven't see your faces in a while

I should call my friends

I should call my friends
And go get high
I need a vacation from my mind
I wanna go nobody knows
Me better than tchem
Wanna feel something again
I should call my friends*

*Lyric Video
