

# Shelby Lynne, Bend

Here's your invitation  
For your consideration  
Nothings' easy  
We'll go slow  
And I'll never ask for anything more  
Than you can give me in return  
We'll never know for sure  
What we will find if we don't try  
On the other side  
Oh we'll take our time  
Bend just a little bit break just a little bit  
Bend just a little bit get rid of it  
Bend just a little bit break just a little bit  
Bend just a little bit, I won't let you fall  
Let's have a conversation  
Talk about our situation  
Embrace the night, don't let go  
No one else has to know  
Understand a little more  
What feelin' somebody is good for  
Stay with me the whole night through  
There's nothin' good as lovin' you  
When daylight breaks I'll love you more  
Than I did before  
All you gotta know is  
Bend just a little bit break just a little bit  
Bend just a little bit get rid of it  
Bend just a little bit break just a little bit  
Bend just a little bit, I won't let you fall  
There's no expectations  
Just give into temptation  
Don't be afraid if you need to cry  
I got enough love to get you by  
Fallin in's the easy part if you're in my arms
