Shelby Lynne, It Might Be Me

I can see it your eyes And it's written in your face Love's taken its toll on you and left a bitter taste

You're tired and you're lonely You're beaten and you're bruised Your heart has grown weary just trying to find a little truth

Chorus:
It might be me
Lord, It might be me
If you still have an ounce of faith I might be what you need...ohhhh
It might be me...ooh
It might be me to set you free
If you're still reaching for the light lord well it might be me

Have a little courage Baby baby take my hand All anybody in this old world is just one good friend...I'm telling you

chorus

lay all your troubles down on me baby I'll show you what to believe in I know just what you're feeling everybody needs some healing can't you see...

chorus
