

Shelly Fairchild, I Want To Love You

How'd I get here baby
How'd I get here in your arms
Why do you make me crazy
Why do I love a perfect storm
I could look at you all night
Stare into love and know that I

I wanna feel your face in my hands
I wanna see your eyes take me in
I wanna say again and again
I want to love you
I wanna let the kiss take it's time
I wanna go where your soul meets mine
And let you know that deep down inside
I want to love you

I'm so lost in you now
I'm so lost I can't be found
My heart's goin' under
Don't save me baby
Let me drown
I want your skin on my skin
I wanna be someone I've never been

I wanna feel your face in my hands
I wanna see your eyes take me in
I wanna say again and again
I want to love you
I wanna let the kiss take it's time
I wanna go where your soul meets mine
And let you know that deep down inside
I want to love you

I wanna love you
I wanna love you
I, I wanna love you

I wanna feel your face in my hands
I wanna see your eyes take me in
I wanna say again and again
I want to love you
I wanna let the kiss take it's time
I wanna go where your soul meets mine
And let you know that deep down inside
I want to love you

I wanna love you
I want to love you
