

# Sheryl Crow, I Don't Wanna Know

I heard the song, it was all around  
Everyone's quitting, everyone's breaking down  
I called your house on the telephone  
Nobody answered, but I know you're home

All in all, it's nature's poetry  
I can't understand the way it flows  
I don't wanna know  
No, I don't wanna know  
Cuz everything I know makes me feel so low  
No, I don't wanna know

I pushed a button just to find my way  
I got directions but I'm still lost today  
I see her smiling, but her eyes were dead  
Nobody's crying, that's what paper said

All in all, it's nature's poetry  
I can't understand the way it goes  
I don't wanna know  
No, I don't wanna know  
Cuz everything I know makes me feel so low  
No, I don't wanna know

All in all, it's nature's poetry  
Can't understand the way it flows  
So I don't wanna know  
No, I don't wanna know  
Cuz everything I know makes me feel so low  
No, I don't wanna know

No, I don't wanna know  
No, I don't wanna know  
No, I don't wanna know  
Cuz everything I know makes me feel so low  
No, I don't wanna know
