

Shift K3Y, Still Love You

Still love you, still love you
Still love you, still love you
Still love you, still love you)

When you left I deleted every picture of you
But I think of you sometimes,
I just don't know why you're still in my head (head)
Or why your clothes are still in my bed?

Everything you do, I don't know what to do
Ever since you left there's nothing else that's left to say
If you let me say,
Still love you, still love you
Everything you do, I don't know what to do
Ever since you left there's nothing else that's left to say
If you let me say,
Still love you, still love you
Still love you, still love you
Still love you, still love you
Still love you, still love you

When you left me I was tripping
I could not even move
But I already crossed the line
See there's no going back, girl I got the map
I won't let it go this time, I know where to go this time

Everything you do, I don't know what to do
Ever since you left there's nothing else that's left to say
If you let me say,
Still love you, still love you
Everything you do, I don't know what to do
Ever since you left there's nothing else that's left to say
If you let me say,
Still love you, still love you
Still love you, still love you
I still love you
Still love you, still love you
Still love you, still love you

When you left me I was tripping
I could not even move
But I already crossed the line
See there's no going back, girl I got the map
I won't let it go this time, I know where to go this time

Everything you do, I don't know what to do
Ever since you left there's nothing else that's left to say
If you let me say,
Still love you, still love you
Everything you do, I don't know what to do
Ever since you left there's nothing else that's left to say
If you let me say,
Still love you, still love you
Still love you, still love you
I still love you
Still love you, still love you
Still love you, still love you
