

Shinedown, EVOLVE

Opinions are biased, shut up and be quiet
I'm trying to make you understand
This is what you're up against
Powerful, powerless
Leaving with the upset
Here to stay, by the way, I turned it around
In a room full of mirrors I figured it out

I had to take leave of my senses
To draw my own conclusion
Had to swing for the fences
To find my own solution
In a world gone mad, it's all so sad
Look what we've become
Welcome to the age of the new evolution

Evolve, evolve
New evolution
Evolve, evolve
Evolve, evolve

Conditioned to fight it, so bring on the riot
Cause we're all invited to the dance
Raise a glass now for the damned
Terrorized, terrified
Praying for your fucking life
Wide awake, dominate
I figured it out
In a room full of mirrors there's only one way out

I had to take leave of my senses
To draw my own conclusion
Had to swing for the fences
To find my own solution
In a world gone mad, it's all so sad
Look what we've become
Welcome to the age of the new evolution

Evolve, evolve
Evolution
Evolve, evolve
Evolution
Evolve, evolve
Evolution
Evolve, evolve
Say it!
Evolve, evolve
Evolution
Evolve, evolve
Evolution
Evolve, evolve
Evolution
Evolve, evolve

I had to take...
I had to take leave of my senses
To draw my own conclusion
Had to swing for the fences
To find my own solution
In a world gone mad, it's all so sad
Look what we've become
Welcome to the age of the new evolution

Evolve, evolve

New evolution
Evolve, evolve
New evolution
Evolve, evolve
Evolve, evolve
