Shiny Toy Guns, Ricochet!

Welcome back to Where I'm gonna to have you Shell shock - fall back Every one I see through. Watch your head spin Like a mesocyclone Bouncing off the walls Now there's nowhere to run Like a bullet ... meant to be shot You're the target Dead on the spot When I focus ... I never miss It starts with a kiss [Chorus] La la la la la la She ricochets! And you don't notice. She's in your head! And you just don't notice Let the sweat fall Find me in the back stall Let it snow down Now we're gonna deck halls I hit the bullseye Making all the boys cry I hit the main line Breaking through the night sky Like a bullet ... meant to be shot You're the target Dead on the spot When I focus ... I never miss It starts with a kiss [Chorus]
