

SHURA, obsession

I remember trying to sleep last night
Quiet
Nothing ever happens here
I was trying to read your mind
Silence
Where you trying oto read my mind too?

You're not cool just to be cool
And i like that about you
I feel scared in your arms

I will be your obsession
I will lay my body at the foot of your bed
I will be your obsession, babe
Cause i need you just the same

I could try to sleep but i will fight it
Don't ever want to let this moment go
And even just a blink and i might miss it
You're giving me the look i know

You're not cool just to be cool
And i like that about you
I feel scared in your arms

I will be your obsession
I will lay my body at the foot of your bed
I will be your obsession, babe
Cause i need you just the same

I will be your obsession
I will be yours

I will be your obsession
I will lay my body at the foot of your bed
I will be your obsession, babe
Cause i need you just the same
