Sia, Numb

I saw you cry today
The pain may fill you
I saw you shy away
The pain will not kill you

You made me smile today You spoke with many voices We travelled miles today Shared expressions voiceless

It has to end Living in your head Without anything to numb you Living on the edge Without anything to numb you

It has to end to begin

Began an end today Gave and got given You made a friend today Kindred soul cracked spirit

It has to end to begin

Living in your head Without anything to numb you Living on the edge Without anything to numb you

It had to end to begin

Living in your head Without anything to numb you Living on the edge Without anything to numb you

Living in your head Without anything to numb you Living on the edge Without anything to numb you

It has begun
