

Sidewalks and Skeletons, HAUNT YOU [Interlude]

There she was, around your neck
All she can touch is held together
There she was, around your neck
All she can touch is held together

There she is now, there she is now
And yet we used to talk, used to talk
All our discussion and yet
Yet we see her

There she was, around your neck
All she can touch is held together
There she was, around your neck
All she can touch is held together

There she is now, there she is now
And yet we used to talk, used to talk
All our discussion and yet
Yet we see her
