

Sidewalks and Skeletons, WHITE LIGHT

Tell me, Chrissy
Have you ever had a near-death experience?
Like you die and then come back?

I... no, I don't think so

Well, neither have I
But there's this new drug out that makes you feel just like that

How wild, you done it?

Yeah, it's called White Light
It's fucking unbelievable
You wanna try some?

Oh, I don't know

Come on, Chrissy
Afraid of a little danger?
