

# Sigma, Find Me (ft. Birdy)

We said goodbye, that's what you told me once  
So many times we've made our peace  
But this is love, I'll never give you up  
I know your love has come home to me

Like a river, always running  
I keep losing you  
Like a fire, always burning  
I'll be here for you

If you're ready, heart is open  
I'll be waiting,  
Come find me  
If you're certain for forever  
I'll be waiting,  
Come find me

I see you, you're in the darkness  
Blinding light right where your heart is  
If you're ready, heart is open  
I'll be waiting, come find me

Come find me  
Come find me

I see you, you're in the darkness  
Blinding light right where your heart is  
If you're ready, heart is open  
I'll be waiting, come find me

On lost highway, that's what you told me once  
But tears they come and go  
This is us, I'll never get enough  
It's taking losing you to know

If you're ready, heart is open  
I'll be waiting, come find me  
If you're certain for forever  
I'll be waiting, come find me

I see you, you're in the darkness  
Blinding light right where your heart is  
If you're ready (if you're ready)  
Heart is open (heart is open)  
I'll be waiting, come find me

Come find me  
Come find me

Run  
Run to me and never leave me now  
Run  
Run to me and never leave me now

I see you, you're in the darkness  
Blinding light right where your heart is  
If you're ready, heart is open  
I'll be waiting, come find me

Come find me

If you're ready (if you're ready)  
Heart is open (heart is open)  
I'll be waiting, come find me

If you're ready, heart is open  
I'll be waiting, come find me
