

# Silence 4, We

She doesn't know how much she helped me to grow  
And the words are lost in my mouth

She taught me to look inside myself and she  
Doesn't know how much I hurt myself

She and Me  
Me and She  
We aren't we  
Anymore

She and me, we don't much, it's true  
We just don't talk, that isn't new

She doesn't know how happy she makes me when she  
Talks to me, i fly away

She and Me  
Me and She  
We aren't we  
Anymore
